Dimensions: 8.5in. x 5.5in. x 0.1in. **I N T R O D U C T I O N** How to Perform Software Metrics is a plain-english, simplified version of IEEE Std 1061 Standard for a Software Metrics Methodology. This how to guide defines the standard for software quality metrics methodology. It is meant for people involved with the purchase, development, use, assistance, maintenance or review of soft-ware. The standard is especially directed at those measuring or reviewing the quality of software. **S C O P E** How to Perform Software Metrics supplies a methodology for founding quality requirements and recognising, implementing, analysing and validating process and product software quality metrics. This methodology applies to all software at all stages of any software life-cycle structure. Sections 1 through 4 provide, scope, definitions, and background information which is the basis of this standard; all parts of Section 5 are compulsory. Appendices A through D are incorporated for illustrative and reference reasons only. This how to guide does not assign specific metrics. However, the appendices include models of metrics together with a finalised example of the use...
