USAID is contributing to the development of this foundation through technical assistance and participation in regional and global initiatives. USAID invests more than 7 million each year to strengthen routine monitoring for emergence and spread of drug resistant malaria and reporting of diseases, enabling governments to quickly identify and respond to a malaria outbreak in a region. Mainstreaming Rapid Diagnostics New community-based approaches to diagnostics, including rapid diagnostics tests, can help overcome insufficient laboratory capacity or resource shortages to enhance from receiving disease surveillance information to response. USAID is working to develop diagnostics tests for both falciparum and Vivax infections, assisting in manufacturing and mainstreaming the use of rapid diagnostic kits around the world. In South East Asia, ACTs are routinely deployed with rapid diagnostic test kits, and in Africa, these tests are rapidly becoming integral in...
